The Group format is designed to help with recovering from the deep hurt and grief that comes from losing someone. Grief Support Sessions include several key elements for working through the healing process:

- **Support:** If you have experienced a death and are having difficulty processing your loss, you are welcome to become part of our small support group.
- **Group Co-Leaders:** Leaders guide the group through its time together in viewing a weekly video, leading the discussion over a set of correlating questions, and giving time to share and support one another. **Fall facilitators:** Daisy & Bob May.
- **Video:** Every session there will be a viewing of a video by experts presenting a variety of issues as related to grief and loss.
- **Work book:** Each participant will get greater benefit by working through a section of the workbook each week, at home. Workbooks expound upon the group teaching and also aides with personal healing.
- **Between Sessions:** Participants will have time for 1) *Personal Reflection* re what was shared at the group meeting, 2) working through the workbook, and 3) considering how these concepts apply in their lives, situations, and personal circumstances.
